Miracle

Your love makes me cry and the tears
Like rain wash away my pains and my fears

After a thousand years you shine like gold
I don't know why your love never gets old?

You're the greatest miracle
You're the greatest miracle of God
You're the greatest miracle

Your love is full of secrets that amaze me
How do all sad hearts that come to you return
happy?

After a thousand years you shine like gold
I don't know why your love never gets old?

You're the greatest miracle
You're the greatest miracle of God
You're the greatest miracle

You're the greatest miracle
You're the greatest miracle of God
You're the greatest miracle

Greater than parting the Nile
Greater than reviving the dead
Is the fire of love flaming in our hearts
When we call out your name

Greater than parting the Nile
Greater than reviving the dead
Is the fire of love flaming in our hearts
When we call out your name

Miracle

You're the greatest miracle
You're the greatest miracle of God
You're the greatest miracle

You're the greatest miracle
You're the greatest miracle of God
You're the greatest miracle

You're the greatest miracle
You're the greatest miracle of God
You're the greatest miracle
